HANNAH NO

COMPUTER SCIENCE UNDERGRADUATE • FULL-STACK WEB DEVELOPER • DIGITAL HUMANITIES RESEARCHER

Email: no.hannah@auw.edu.bd • nohannah508@gmail.com **Phone:** +880 1404477094

Location: Chittagong, Bangladesh / Phnom Penh, Cambodia **LinkedIn:** linkedin.com/in/hannah-no-882b87192

GitHub: github.com/nohannah

PROFESSIONAL SUMMARY

Driven and empathetic Computer Science student at Asian University for Women with a strong technical foundation in full-stack software development, computational research, and STEM education. Proven track record in developing enterprise backend applications using PHP and MySQL, creating digital humanities GIS mapping tools, and serving as a university Teaching Assistant in Computer Science and Mathematics. A passionate advocate for women in technology with recognized leadership as Cambodia Country Representative and international competition finalist. Committed to applying technical and analytical capabilities to impactful software engineering and research initiatives.

EDUCATION

Bachelor of Science in Computer Science Jan 2023 – Present (Expected May 2027)

Asian University for Women (AUW) • Chittagong, Bangladesh *Full Academic Scholarship*

- **Relevant Coursework:** Data Structures & Algorithms, Artificial Intelligence, Data Science & Mining, Web Development, Object-Oriented Programming (Java), Digital Humanities & Spatial Analysis, Linear Algebra, Calculus.
- Active academic contributor, university mentor, and diplomatic liaison representing the Cambodian student community.

Higher Diploma in Software Development & High School Diploma Oct 2018 – Jan 2023

E2STEM Education Cambodia • Phnom Penh, Cambodia *Full Merit Scholarship*

- Completed intensive, project-driven software development curriculum covering C, Python, JavaScript, and full-stack web engineering.

Bachelor of Engineering in Information Technology (Foundational Studies) Mar 2022 – Jan 2023

Royal University of Phnom Penh (RUPP) • Phnom Penh, Cambodia

Transferred to AUW

TECHNICAL & PROFESSIONAL COMPETENCIES

Programming Languages: Python, C, Java, PHP, JavaScript (ES6+), SQL

GIS & Research Tools: ArcGIS, Leaflet.js, GeoJSON, Qualitative Archiving, Literature Review

Domain Expertise: Full-Stack Development, Data Mining, Robotics Education, Ethical Research

Web & Database: MySQL, HTML5, CSS3, Relational Schema Design, Apache/XAMPP

Systems & Utilities: Git, GitHub, Linux (Ubuntu, Kali Linux), VS Code, Microsoft 365, Google Workspace

Languages & Soft Skills: Khmer (Native), English (Fluent) • Leadership, Peer Mentoring, Cross-Cultural Communication

ACADEMIC & RESEARCH EXPERIENCE

Digital Humanities Research Intern Jul 2026 – Present

Asian University for Women • Chittagong, Bangladesh *Digital Humanities Research Lab*

- Investigate oral narratives, migration histories, and geopolitical events shaping AUW's diverse international student body.
- Design and deploy interactive spatial mapping visualizations leveraging **Leaflet**, **ArcGIS**, and **Python** to record demographic and historical migration trajectories across South and Southeast Asia.
- Conduct systematic literature reviews and implement ethical data collection protocols for sensitive transnational historical datasets.

Computer Science Teaching Assistant Jan 2025 – Present

Asian University for Women • Chittagong, Bangladesh *Division of Science & Technology*

- Teach introductory Computer Science principles, foundational programming logic, and problem-solving to undergraduate pathway students.
- Lead weekly review sessions, provide comprehensive 1-on-1 code debugging support, and evaluate student programming

INDUSTRY EXPERIENCE & STUDENT LEADERSHIP

Web Developer Intern Sep 2022 – Dec 2023

ISI GROUP • Phnom Penh, Cambodia *IT Department*

- Selected as one of three high-performing developers from E2STEM to architect enterprise web solutions for corporate operational infrastructure.
- Engineered the backend architecture for a company-wide **Room Booking System** utilizing **PHP** and **MySQL**, eliminating reservation conflicts across corporate conference facilities.
- Built and optimized relational database schemas, dynamic query handlers, and secure session management protocols; integrated responsive frontend components using HTML5, CSS3, and JavaScript.
- Collaborated with senior IT staff to participate in code reviews, bug remediation, and user acceptance testing (UAT).

Cambodia Country Representative Sep 2024 – Sep 2025

AUW Student Government • Chittagong, Bangladesh *Diplomatic Student Leadership*

- Elected to serve as the principal diplomatic bridge between the Cambodian student constituency and university senior administration.
- Advocated student welfare concerns, facilitated cross-batch communications, and organized cultural integration forums for incoming international scholars.

Robotics Instructor & STEM Sister Advocate Sep 2020 – Jan 2023

E-Robot & STEM Cambodia • Phnom Penh, Cambodia *Community Outreach*

- Instructed high school students in robotics fundamentals, sensor integration, and block-based programming logic.
- Served as a certified ambassador for *STEM Sister Cambodia*, promoting gender equality in technical fields, mentoring aspiring young women, and delivering workshops on female careers in engineering and computer science.

FEATURED TECHNICAL PROJECTS

Full-Stack Food Ordering & Management Web Application **PHP • MySQL • HTML5 • CSS3 • Apache**

Repository: github.com/nohannah/order-food.php

- Engineered a dynamic, full-featured web ordering platform from scratch featuring real-time food search, category-based browsing, dynamic pricing aggregation, and an interactive customer checkout workflow.
- Developed a comprehensive administrative control panel with full CRUD operations for menu inventory, category curation, order lifecycle tracking, and administrative credential management.
- Architected relational database schema (`food_orderdb.sql`) utilizing structured SQL queries, data validation, and parameter sanitization to safeguard system integrity.

Transnational Migration Geoportal & Mapping System **Leaflet.js • ArcGIS • Python • GeoJSON**

- Designed and built interactive spatial layers representing cross-border student journeys and geopolitical migration drivers affecting university communities across South Asia.
- Parsed and standardized qualitative archival records into geospatial coordinate schemas, enabling visual narrative exploration.

"Character First" Mobile Application (Technovation Global) **Mobile App Development • Business Pitching • UI/UX**

- Led a student development team in a rigorous 12-week entrepreneurship incubator; designed and developed an interactive mobile application promoting socio-emotional character building for Cambodian youth.

HONORS, AWARDS & CERTIFICATIONS

Honors & Competitions

- **Full International Scholarship:** Asian University for Women (4-year undergraduate study) Merit
- **Full Merit Scholarship:** E2STEM Education Cambodia (5-year secondary and higher diploma)
- **Top 70 National Finalist:** ASPIRATION Cambodia Creativity Competition (environmental innovation addressing water pollution)
- **Global Team Leader:** Technovation Challenge Cambodia (Mobile business solution)
- **Startup Prototype Finalist:** Seedstars Cambodia (circular

Certifications & Training

- **Introduction to Python Programming:** RezByte (Project-based software development internship)
- **Computer Science Fundamentals:** Microsoft CODE Certification
- **Responsive Web Design:** Cambodia's Children Trust (HTML5 & CSS3)
- **Certified First Aider:** Saint John Brigade Singapore / Yukontor High School
- **Clean Energy Innovation:** Engineers Without Borders (EWB) Workshop
